

About the Ofsted Big Conversation

The **Ofsted Big Conversation (OBC)** is a voluntary national forum bringing together Early Years providers, Ofsted, Local Authorities and sector leaders.

The aims of the OBC are to:

- Provide a communication forum where early years providers can raise shared concerns and seek clarification directly from Ofsted.
- Allow Ofsted to provide updates on current developments and future direction while helping to dispel common misconceptions.
- Share examples of good practice and promote sustainable, high-quality early years provision.
- Enable Local Authorities to provide regional updates and answer questions relevant to providers within their area.
- Encourage collaboration, networking and continuous professional development across the early years sector.

By participating in these meetings, Clare House Nursery demonstrates its commitment to maintaining the highest standards of care, safeguarding and education for all children.
